

## OTTO Product Change Notification

**CHANGE NOTIFICATION #:** 4152016  
**ISSUE DATE:** April 15, 2016  
**PRODUCT(S) AFFECTED:** TE Toggle Series Product  
**EFFECTIVE DATE:** On or about 5/1/2016

Dear Valued OTTO Customer:

The purpose of this notification is to inform you of a pending change to the TE series toggle switch. Please review this information in detail. Should you have any questions or require any additional information please contact your OTTO Regional Sales Manager or call us at (847) 428-7171 or email us at [info@ottoexcellence.com](mailto:info@ottoexcellence.com).

### **Description of Change:**

The TE series toggle design has been changed. This toggle bushing has been changed from a two piece design to a one piece design to improve strength. The bat handle is now pinned to the bushing, increasing push/pull force and manufacturability is improved. The toggle switch's physical appearance is different. However, the envelop dimensions are within the MIL spec requirements. The electrical ratings and cycle life specifications remain unchanged.

### **Impact on OTTO Customers:**

None.

### **Validation Testing Performed:**

The TE Product Series was fully tested and qualified by OTTO to the MIL specification (MS90310 or MS90311 or MS24655 or MS24656).

### **Effective Date:**

The new design will begin shipping on or about 5/1/2016.
